Grane Rx
PHARMACY MADE SIMPLE

Making PACE pharmacy simple since 2006.

Like you, we're here to help seniors live healthier, happier lives in their own homes. It starts by helping you improve quality and your participants' medication adherence. Grane Rx provides the highest quality PACE pharmacy solutions, from ordering and packaging to delivery right to the participant's home. Our pharmacy processes will integrate seamlessly with your EHR system—including **TruChart**—and assist with your clinical care planning. It all adds up to a smoother, easier process for seniors to get PACE medications at home.

Comprehensive Medication Management

Our Pharmacists are clinically focused on geriatric care and will help you reduce hospital readmissions and ER visits, improve adherence and minimize the number of medications you administer.

You'll also minimize preventable, expensive and disruptive Adverse Drug Events, while reducing complex therapy regimens. And you'll have the medication analytics that will help enhance the health of both your participants and the effectiveness of your center.

Build a program that works best for your center:

> Routine medication reviews

> On-demand change of health status reviews

> Pre-enrollment medication reviews and assessments

> Participant fall reviews

> Hospitalization medication reviews

> Adherence/compliance evaluations

> Preferred medication program with compliance monitoring

> Anticholinergic Initiative
– Reports by participant and prescriber tendencies
– Clinical pharmacist recommendations & therapeutic alternatives

1

SimplePack:
Medication

When it's time to improve medication adherence and participant outcomes, it's time for SimplePack. Our medication process packages oral solid medications in easily organized medpacs. Medications are "pre-poured" by administration date and time (breakfast, lunch and dinner) and are available in 7, 14 or 28-day supplies.

SimplePack includes easy-to-read and understand medication instructions. Medications can be shipped to either your center or the participant's home. So, you'll spend less time handling medications and more time caring for participants.

Trust and Quality Comes First

Everywhere you look at Grane Rx—from advanced medication packaging solutions and imaging technology to simplified medication ordering. Our multi-step verification system improves safety and strengthens your confidence in Grane Rx. Every SimplePack is electronically imaged and verified for even greater safety.

Meds ordered by Prescriber	Packaging Technology ensures Quality & Safety	Medication Imaging & Verification	Logistics made simple	Customer Service & Support
> Orders received via e-prescribing interface from PACE center or remote prescriber > All orders are monitored electronically by pharmacy to ensure safety & quality	> Every medication order is clinically verified. > Bar code scanning ensures right drug for right participant. > Perpetual inventory systems eliminates out of stock situations.	> 100% imaging of all medpacs. > Electronic & pharmacist verification for all medpacs. > All images are available to customer upon request.	> Medications can be delivered directly to the participant's home. > Reduces need for PACE center intervention. > Cycle medications delivered twice per month or monthly.	> Certified Geriatric Pharmacists and nurses are available 24/7 to support. > SimplePack easy to read and understand for participants. > LearnRx: Multilingual and simplified medication literacy.

2

SimpleAccess:
Electronic Medication Cabinet

Imagine having the right medications on hand when participants arrive at your center—and always keeping key medications on hand, in case of an emergency. Our SimpleAccess Electronic Medication Cabinets will do this for you. By connecting your center with our pharmacy, we streamline medication orders; quickly and easily make medication changes; and keep communications flowing smoothly.

Medication Cabinet Features

GraneRx SimpleAccess Cabinet

1) Best in class on-site medication system ✓

2) Automated Controlled Substance Management (depends on State regulations) ✓

3) Automated Inventory Controls so that medications are never out-of-stock or out-of-date ✓

4) Real-time reporting on medications accessed and removed from cabinet for FWA compliance ✓

5) Secure Finger Print Scanning for easy access ✓

6) Bar Code Scanning for quality and safety ✓

7) Flexible Temperature Device – Refrigerator temperature monitoring, alerts and reports ✓

8) Participant Medication Review – Pharmacist approves all orders before medications are removed by nursing ✓

3 EHR Interoperability Made Simple

We can interface with virtually any EHR (Electronic Health Record) system. Our proprietary interface gives you a single, simple point of entry for all your clinical and ePrescribing needs. Now PACE operators, nurses and medical teams can use a **single system** for pharmacy messaging and clinical communications.

The result: streamlined operations with fewer errors and greater nurse and physician satisfaction. So you can help ensure medication compliance with your participants. Our EHR interface will not only improve your internal operations, but will also provide support for Meaningful Use reimbursements as well.

One integrated system does it all:

- > New Rx Orders
- > Refill Requests
- > Cancel Rx
- > RxChange orders
- > RxFill confirmations
- > Medication Renewal Management
- > Med Reconciliation
- > Census Messaging
- > Verbal Rx
- > Pharmacy Inventory Interface
- > Shipping Information
- > Messaging Collaboration Platform
- > Electronic Prescribing of Controlled Substances (EPCS)
- > eMAR

4 SimpleView: Online Pharmacy Access

True to its name, the SimpleView pharmacy portal makes it fast and easy to access the clinical and financial information that you want most—**in real time**. In fact, SimpleView fills the gaps that EHR systems often have in providing real-time information.

Our pharmacy portal runs hand-in-hand with your current EHR system and completes the picture with a click of the mouse. Rest assured that SimpleView is HIPAA-compliant and tested to ensure the security and privacy of participant information.

Here's what you can do with SimpleView:

- > Customized dashboards
- > Medication analytics and reports
- > Prescribing trends
- > Refill requests
- > Drug cost estimates
- > Pharmacist messaging
- > Consultant clinical reports
- > Multi-lingual medication instructions videos
- > Medication PMPM information
- > Real-time financial analytics
- > Participant medication profile analysis
- > Medication alerts
- > ePrescribing for CII-V
